**Suozzi Statement on the Situation in Ukraine**

**“Politics and partisanship must stop at the water’s edge. Democrats and Republicans must have a united front against Putin’s lying, ruthless manipulation, and his violent murder of Ukrainian people.**

**Heavy sanctions against Putin and his cronies, an embargo of Russian oil, and aid to Ukraine are all things we agree upon.**

**Whether or not to close a United Nations mission should be negotiated with the State Department and we should seek a bipartisan consensus.**

**We as New Yorkers must seek assistance from the Wall Street community to determine the most effective way to crush Russia economically. As Governor, I would call all Wall Street and banking leaders together to seek a concerted action plan.”**
